

400

SPACE TO LIVE & ENTERTAIN

The Flagship of the Haines fleet offers the choice of two hull designs:-Semi Displacement or Medium Vee Planing.

Above deck level both boats are identical & offer accommodation for either 6 or 8.

The semi displacement 400 is available with single or twin engine installation whilst the planing 400 Offshore provides up to 28 knot performance with the larger engine options.

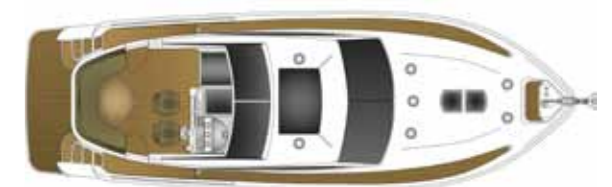

Whichever hull design you choose, space and light come as standard. The 400's saloon is the biggest in its class and has panoramic windows with large sliding openers to port and starboard, together with an opening glass sunroof.

Other standard features include Avonite work surfaces to the galley and heads, heating throughout, the saloon drinks fridge, and a moveable two seater settee to port giving seating for eight around the extendable saloon table.

More practical boating needs are also covered as standard on the 400 such as a battery charger, waste tanks with diverter valves, Garmin speed / depth log, and synthetic teak decking to bathing platform, aft steps and aft deck areas.

CLASSIC OR CONTEMPORARY - THE CHOICE IS YOURS

Haines offer two different timber work styles for the 400 and a range of different hard woods, all hand crafted to the customer's exact choice.

The standard layout offers two staterooms with island double beds and full en-suite facilities to each including separate shower cubicles.

This layout allows for a class leading galley using the full beam of the boat and giving ample worktop space, stainless steel domestic sized fridge freezer, double sink, hob and oven, and an optional microwave.

A washing machine/dryer or dishwasher could also be accommodated in this area.

Other layout options include a mid cabin version with twin bunk beds or the option of a dinette forward of the saloon and 2 vee berths in the forward cabin. Please ask for details.

SLEEK, SAFE, STYLISH

On deck the 400 Haines offers style & practicality.

The side decks are wide with a solid stainless steel guardrail. Whilst the aft deck is enclosed by a GRP coaming with GRP gates port and starboard, this arrangement creates a wonderfully safe place for a family to relax and play, and it can be completely enclosed by a quick deploy canopy.

Boarding & alighting is made easy by the port and starboard steps that lead from the extended bathing platform to deck level.

TECHNICAL SPECIFICATION

The flagship of the Haines fleet offers the choice of either semi displacement or full planing hull form. Both models offer luxury accommodation for up to 8.

The 400 is available with single or twin engine installation. Whilst the Offshore provides a 30 knot performance with larger engine options.
